Re: 780 Ten Mile Rd, Lynden, WA 98264
Parcel # 390317332370

I purchased this 60 acre farm from the Johnsons in 1974, then in 1978 refinanced thru the Farmers Home Administration and was given the right to dig and install an irrigation well with a main line for a 24 head sprinkler system for my farm. This well is used seasonally to put water on my crops only. I have been farming and cropping these 60 acres with corn and grasses continuously since owning my farm.

This is prime agriculture soil located here in Whatcom County. Very fertile, rich and very heavy peat that has Ten Mile Creek running along my north and north easterly boundary. The only use this land can have is agriculture, therefore getting my irrigation well certified/recorded for farming is not only logical but necessary.

I have a domestic well near my home for personal use, and also waters my stock. I have a registration number for this well #131185. My irrigation well is located next to my lagoon on the other side of my farm.

I understand that I cannot get a permit today, but wish to complete the necessary application and fees and keep on file at the DOE, so that the certificate can be one day completed.

Sincerely

Gilles DeHoog, Jr.
